**From:** "Jonah Edwards" <jonah@archive.org>

Hi Jacques, for the category 2 bid, I have:

2x Juniper QFX5100-48S with Next-Day Support, \$11500 ea

2x Cube Optics 8-channel CWDM, \$6000 ea

16x Cube Optics CWDM Transceiver, \$2000 ea

switch

— mux

— Transceiver2

Total: \$67000

These are stale quotes (from our Juniper VAR and directly from Cube Optics AG), but should be relatively accurate.

This would enable us to upgrade our point-to-point interconnection from our primary point-of-presence to our two satellite datacenters, which provide both our services as well as public and/or community access to Internet.
